PATIENT POPULATION AND LEARNING EXPERIENCE

- Diverse patient population -- from neonatal/pediatric to geriatric/palliative patients
- Opportunities to perform procedures such as IUD insertions, mole/lump removals and other minor procedures
- Large maternity and pediatric population as there are 5 physicians who do prenatal care and deliveries
- Clinic equipped with ECG and spirometry
- EMR-based charting

A dedicated procedure room is used for procedures such as biopsies, mole/nail removals, vasectomies, circumcisions, IUD insertions and many other minor procedures, performed by the Physicians.

Specialty services such as Respiratory, Plastic Surgery, Psychiatry and Mental Health counselling are also provided at the Clinic. Regular CME events are hosted in the clinic boardroom.
